

# New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

*The Treasury explains why the new ones you buy and the ones you own now are better than ever*

**Q:** How does the new  $3\frac{3}{4}\%$  interest rate benefit me?

**A:** With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months. With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to  $2\frac{1}{4}\%$  for the first year and a half; then a guaranteed  $4\frac{1}{2}\%$  each year to maturity.

**Q:** When did the new rate become effective?

**A:** June 1, 1959.

**Q:** Does the new rate change the Bonds I bought before June 1, 1959?

**A:** All older E and H Bonds pay more now—an extra  $\frac{1}{2}\%$  from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

**Q:** Will the Bonds I own automatically earn their new rate?

**A:** Yes. You don't need to do a thing—just hold on to your Bonds.

**Q:** When my E Bonds mature, will they keep on earning interest?

**A:** Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

**Q:** With the new interest rate, should I cash in my old Bonds and buy new ones?

**A:** No. The automatic  $\frac{1}{2}\%$  increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

**Q:** How are series H Bonds different from series E Bonds?

**A:** The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

**Q:** In what denominations can I buy series E and series H Bonds?

**A:** E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000, and \$10,000. They are priced at face value.

**Q:** How safe are U.S. Savings Bonds?

**A:** Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

**Q:** What if my Bonds should be lost, stolen or destroyed?

**A:** You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

**Q:** Where can I buy Bonds?

**A:** Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount in your name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

**Q:** How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

**A:** Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

## Water Ski Show Is Hit At World's Fair

NEW YORK — Robert Moses, entrepreneur of the New York World's Fair, is calling the Florida Water Ski Show the "orange of its eye." This is because the Florida show has been drawing a fantastic percentage of the fair's total attendance.

The Florida exhibit this year, under the guidance of Gov. Burns and Dick Pope, Cypress Gardens owner and president of the Florida World's Fair Authority, has gone from 3.1 acres to 10 acres in size with all its shows free.

The building housing the Florida Water Ski Show is larger than Grand Central Station and cost the city of New York \$27 million to build. Moses spent an additional \$350,000 this year to build the oval track for the ski show. All of this was given to Florida free for the summer long shows.

Now, Florida, to take care of the thousands who cannot get seats to see the four daily ski shows, has added two night shows under lights. This means that the Florida pavilion should run from 75,000 to over 100,000 visitors daily throughout the remaining months of the world's Fair.

## School's Out, Please Watch For Children

TALLAHASSEE — "Schools Out, So Please Watch Out," stated Florida Highway Patrol Commander H. N. Kirkman as he reminded motorists that schools are closing for the season and every driver should be prepared to avoid running down the child who may materialize in front of his car at any time.

"More children in the 1 to 14 age group are killed in traffic mishaps each year throughout the nation than from any other disease," Kirkman reminded. "Last year 72 children in this age group were killed and 1,719 injured by motorists in accidents on Florida's streets and highways.

Kirkman warned that drivers must always expect the unexpected where children are concerned, remembering that children are unpredictable and that the motorist must think for them in traffic. "Drivers should be particularly alert near public parks and playgrounds—in fact, near any place where children may be expected to gather."

"All of us have a moral responsibility to keep children safe," Kirkman said, "and traffic is so potent a danger to youngsters that it will take all of us to do the job."

## Soft Ball League In Splendid Games Over The Week End

Sparked by two masterful pitching performances by Phil Bonnell, and home run power supplied by Bruce Taylor, Jim Tyson, and Alvy Early, City Products dominated Geneva's 15-1, Saturday night and blanked Glades Chevrolet 11-0 Sunday afternoon to retain their one game lead over Rashley's Dry Cleaners, who outscored Geneva's 13-12, and held off Loxahatchee 16-8 to hold on to second place in the Glades Fast-Pitch Softball League.

Bonnell struck out 11 batters and gave up two hits while Bruce Taylor hit a two-run home and three singles to pace the Icemen over Geneva's 15-1. Jim Tyson's solo home run, and Alvy Early's two-run blast made Bonnell's job easy Sunday as he threw a one-hitter at Glades Chevrolet. Bonnell and Mac Crews each had two hits for the winners in Sunday's contest.

Larry Marsh hit two home runs for Geneva's against Rashley's but their rally fell short as Earl Vann recorded his third win, for the Cleaners, 13-12. Ro Goodson hit his first home run to help Rashley's southpaw, Jerry Snyder, earn his third win, over Loxahatchee, 16-8. Snyder gave up two home runs to the Prisoners in that game.

## New Schools Take Time And Planning

WEST PALMBEACH — It is often asked, "Why does it take so long to plan and build schools or school additions?"

Some have expected many new schools to have been completed already from the \$26.7 million bond issue money voted last November and validated for the beginning of this year.

Here's why it takes time:

1. Every five years the State Dept. of Education issues a survey which, among other things, shows where new schools are needed or indicates areas where sites should be bought. The last survey was made in 1963.

2. County school boards may not start buying sites nor begin building schools or additions, without first having the cold cash in the bank. This differs from private enterprise which can raise loans, and build on credit.

3. Since new sites must be bought in the area indicated in the survey, there are not always obtained without long negotiation or condemnation proceedings.

4. Architects can only begin making preliminary plans after the site is owned and they know what terrain they have to deal with, what utilities are already in effect (if any), if the site must be "improved" before construction can begin, what access roads there are, etc. Drawing cannot be started without knowing where the school will be located.

5. Preliminary plans must be approved by the county school board, and then sent to Tallahassee for state approval — which may take several weeks.

6. When approved by the state, preliminary plans can be developed into the working, or final, plans — a detailed, expensive job which cannot be started till it is known that the preliminary plans have been approved, or there will be a waste of tax money.

7. When the final plans are complete some weeks later, they must be approved by the county school board and sent to Tallahassee.

8. When approved by the State authorities — often several weeks later — the county school board can vote to have the project advertised for bids.

9. Florida law requires that all such projects be advertised for three consecutive weeks. Further, that there must be at least a seven day lapse from the date of the last advertisement to the date of opening of the bids.

10. After bids are opened, they have to be analyzed. It is frequently not immediately apparent who is the lowest and best bidder because of a number of "alternatives" and other considerations involved in the bidding.

11. From the day ground is broken, high schools usually take some 300 days to complete — if there are no storms, material shortages or labor disputes to hinder completion. Typical elementary schools of 23 classrooms for some 700 students normally take 200-220 days to construct.

For those asking what the county school board is doing with the bond issue funds voted last November, and validated about a month later, it is pointed out that this is still only June and the above laws and regulations, established for the public's protection, serve also to protect school administrations against spending tax money for wrong type schools in the wrong places at the wrong time. Also, the current desegregation program, switching the school system from a dual to a unitary system is causing a re-evaluation of the school building program.

I would like to convey my deep appreciation for the many prayers and expressions of love and concern during my recent illness. You, my friends and loved ones, have made my days much brighter. I thank God for every one of you. May his richest blessings be yours.
